Nedbank
way

Patela (Pty) Ltd

Application for PF & ISO sponsorship

01

Introduction

Company Background, Ownership Structure & Core Business, including key individual

02

Business Model and Operational Review

Include flow of funds, SO's, PSP's and Gateways in the flow

03

Compliance and Risk Mitigation

Demonstrate full compliance with PASA, Card Networks, AML, FICA, RMCP, Sanctions and merchant screening

04

Strategic Value

Demonstrate strategic Value the applicant will bring to Nedbank from the sponsorship, including Customer segments in focus

05

Forecasted Business Volumes

Provide detailed 5 year forecast of anticipated volumes split by Card present and Card-Not-Present

Company Background

Patela (Pty) Ltd (Reg: 2025/978854/07) is a South African fintech company specialising in point-of-sale (POS) payment solutions and payment gateway services. Founded by Lekau Freddy Sehoana to empower small and medium enterprises (SMEs) and informal traders with affordable, reliable card payment acceptance. The company holds ICASA Type Approval (TA-2025/5512) for its QPOS Plus Mobile POS device and is registered with the Information Regulator (POPIA Reg: 2026-000066).

Ownership Structure

Patela (Pty) Ltd is a 100% black-owned South African company. Director: Lekau Freddy Sehoana (ID: 8809206500080). Registered address: 1149 Martial Eagle Street, Olivedale, Randburg, Gauteng, 2188. Contact: 063 564 8540 | sehoanafl@gmail.com. Related entity: Bendalo Minerals (Pty) Ltd (Reg: 2026/111139/07).

Core Business

1. Patela POS – ICASA-approved QPOS Plus Mobile POS terminal (Type Approval TA-2025/5512) supporting GSM 900/1800, LTE (Bands 1,3,7,8,20), BT, BLE, WiFi, NFC, and GNSS. Enables merchants to accept Visa, Mastercard, and local debit cards.
2. Patela PayGate – A payment gateway platform allowing online merchants to integrate and receive card payments securely.
3. Device Distribution – Procurement and deployment of 1,000 QPOS Plus devices in Year 1, with 50 devices allocated to active merchants generating approximately R2,000/month each.
2. Patela PayGate – A payment gateway platform allowing online merchants to integrate and receive card payments securely.
3. Device Distribution – Procurement and deployment of 1,000 card machines in Year 1, with 50 devices allocated to active merchants generating approximately R2,000/month each.

Key Individuals

Director & Information Officer: Lekau Freddy Sehoana. Appointed as Information Officer under POPIA on 2026-01-05 (Registration: 2026-000066). Responsible for payments, compliance, and business development within the South African market.

Business Model Overview

Patela operates as a Payment Facilitator (PF) and Independent Sales Organisation (ISO), providing end-to-end payment acceptance services.

Flow of Funds

1. Customer presents card at merchant POS terminal or online checkout.
2. Transaction is routed via Patela PayGate to the acquiring bank (Nedbank).
3. Nedbank processes the transaction through Visa/Mastercard networks.
4. Settlement funds flow from Nedbank to Patela's settlement account.
5. Patela deducts processing fees and settles net amount to merchant within T+1 or T+2.

System Operators & PSPs

Patela acts as the PSP (Payment Service Provider) aggregating merchants under its master merchant account with Nedbank. No third-party SO or gateway is used – Patela's proprietary PayGate platform handles all transaction routing, reconciliation, and settlement.

Revenue Model

Transaction fees: 2.6% per card-present transaction.

Device sales/rental income from POS terminal distribution.

Monthly subscription fees for PayGate merchant accounts.

Compliance Framework

PASA (Payments Association of South Africa):

Patela will register as a Third Party Payment Provider (TPPP) and comply with all PASA rules and directives for card payment acceptance.

Card Network Rules (Visa/Mastercard):

Full adherence to Visa and Mastercard operating regulations, including PCI-DSS Level 1 compliance for cardholder data security.

AML/CFT & FICA:

Robust Anti-Money Laundering and Counter-Terrorism Financing policies. Full FICA (Financial Intelligence Centre Act) compliance with KYC/KYB processes for all onboarded merchants.

RMCP (Risk Management and Compliance Programme):

Dedicated compliance officer. Real-time transaction monitoring. Chargeback and dispute management framework. Fraud detection and prevention systems.

Sanctions Screening:

All merchants screened against OFAC, UN, EU, and SA sanctions lists during onboarding and on an ongoing basis.

Merchant Screening:

Company registration (CIPC): Patela Reg 2025/978854/07, Bendalo Minerals Reg 2026/111139/07. Tax clearance, Director ID verification (ID: 8809206500080), Bank confirmation letter, Proof of address (1149 Martial Eagle Street, Randburg, 2188). ICASA Type Approval (TA-2025/5512) for POS device. POPIA Information Officer registration (2026-000066). Ongoing monitoring of merchant activity and risk scoring.

Strategic Value to Nedbank

Market Expansion:

Patela targets underserved SMEs and informal traders – a segment largely excluded from traditional banking card acceptance. This brings new merchant volume and card transaction revenue to Nedbank's acquiring business.

Financial Inclusion:

By providing affordable POS devices to township businesses, street vendors, and micro-enterprises, Patela directly supports Nedbank's financial inclusion mandate and B-BBEE objectives.

Volume Growth:

Year 1: 50 active merchants generating R1.2M in card turnover.

Year 5 projection: 1,500+ merchants with R57.6M in annual card turnover.

Customer Segments in Focus:

- Spaza shops and informal retailers
- Salon and barbershop owners
- Food vendors and small restaurants
- Service providers (mechanics, plumbers, electricians)
- Online SME merchants (via PayGate)

Technology Differentiation:

Patela's mobile-first, cloud-based platform reduces onboarding time and provides real-time reporting, giving Nedbank visibility into an emerging merchant segment.
